Statement of Non-use of Chemicals Subject to the ECHA REACH Regulation

The European Chemicals Agency (ECHA) REACH regulation specifies the control of chemical substances manufactured or imported in the EU. REACH stands for Registration, Evaluation, Authorization and Restriction of Chemicals.

The ECHA web site may be found here: http://echa.europa.eu/reach_en.asp

Information regarding Substances of Very High Concern (SVHC) according to Regulation (EC) No 1907/2006 (REACH), Art. 33 SVHC (substances of very high concern) are chemical bonds (or part of a group of chemical bonds) for which the approval of application within EU is subject to the REACH regulation. The first list of SVHC has been published on October 28th, 2008. The latest version dates January 15th, 2019, including 197 substances.

The Candidate List of Substances of Very High Concern (SVHC) for Authorization can be found on the ECHA site: <http://echa.europa.eu/candidate-list-table/>

The list of restrictions is the Annex XVII to REACH and includes all the restrictions adopted in the framework of REACH and the previous legislation, Directive 76/769/EEC. The list of Restrictions can be found at: <http://echa.europa.eu/addressing-chemicals-of-concern/restrictions/list-of>

Coast to Coast Circuits, Inc., is fully compliant with the REACH regulations as we do not manufacture, use, or import chemicals that are identified by the European Chemicals Agency (ECHA). To the best of our knowledge, based on the information available to us from our suppliers, our current products offered do not contain any substances of very high concern as published on January 15th, 2019 Candidate List of "Substances of Very High Concern (SVHC)", respectively above a limit of 0.1 % weight by weight.

Coast to Coast Circuits, Inc. does not produce or import articles that are subject to the REACH regulation into the EU or elsewhere. All our products are Printed Circuit Boards and not raw materials. None of our products intentionally releases substances into the environment under normal conditions of use.
